

Behssa Engineering Co.

(Bristol Fire Co. Representative)

Behssa Engineering Co. Resume

Behssa Co. has been started its career in 2003 backed by years of experience of its management team in field of design & supply of all equipments for national mega-project in the form of contracting/consulting companies with the aim of providing specialized engineering services in the field of related activities such as residential, commercial , educational& industrial construction project & offering a large range of products covering fire sprinklers and irrigation systems.

During its history the company has continued to evolve to adapt to changing market and expand its activities. Evidence of this is the creation of a fire protection department.

With regard to increasing upgrade of standards in construction industry & ability to manage operational parameters & the necessity for more secure structures against environmental damage for highlighting the fundamental approaches of management & energy efficiency, the company aims to optimize the management & development of the construction industry in Iran & taking advantage of previous experiences & application knowledge & finding out new technologies by participating in specialized exhibitions of the construction in European countries attempted to make contact with the world's top manufactures & in this regard the company has been successful in obtaining a valid agency from several reputable companies with targeting to construction industry, equipment & basic commodities such as fire alarm, fire fighting& building management system (BMS) & etc.

Behssa corporate vision to provide engineering services for the optimal employers, contracting & Consulting companies, providing equipments in the shortest possible time & at a reasonable cost with high quality & applied all their strength & expertise to achieve this goal & hopes to get the highest of all engineering companies as soon as possible to contribute an important role on improving the quality of Iranian engineering knowledge.

With Behssa you'll get benefits of regular development of new products and accessories of very high quality. ISO 14001, 9001 certified, our products are approved by organizations such as Factory Mutual (FM, USA) and The Loss Prevention Council (LPC, UK) guarantees respect for the quality of our products. Our human size structure allows us to adapt to rapidly changing markets and to respond quickly to our customers' needs

Our Company has been approved By Fire Department Organization for designing, supplying, installation & maintenance of firefighting equipment.

All of the equipment provided by the Bristol Co. are observable in fire department website.

In this regard, notifies that intended equipment will be provide by Behssa Co. through the following vendor list.

1-FIRE FIGHTINGAND FIRE ALARM:

- Bristol Fire (UK)
- Patterson (USA)
- Mircom (USA-CANADA)

Principles of the QC100 Total Quality Management Model

Commitment of Behssa Engineering Co. to Quality

Our company accepts quality as a factor of development to become more competitive.

Behssa Engineering Co. is committed to publicizing this Quality Culture with employees, suppliers, clients and the community, supported by the QC100 Total Quality Management Model, the principles of which are the following:

- 1 Quality is a consequence of valuing customer satisfaction and obtaining positive business results.
- 2 Meet the quality levels established in the company in accordance with the QC100 Points of Quality.
- 3 Encourage participation and teamwork for decision making.
- 4 Satisfy the needs of our clients and meet their expectations.
- 5 Provide human resources, both technical and economic, to achieve continuous improvement and respect for the environment.
- 6 Manage human resources in our company to achieve the maximum potential.
- 7 Make employees aware of the importance of concentration on the most profitable areas of activity, to achieve the best business results.

The achievement of these seven principles by Behssa Engineering Co. will foster improvement for clients, employees, suppliers and all of the other persons who make up the company.
